SUMMARY

4th Year Information Technology student specializing in Web and Mobile Application Development. Experienced in full-stack development, database architecture, and cloud services. Proven track record of developing a solution for smart transportation to streamlining workflows of local companies.

EDUCATION

De La Salle Lipa **September 2022 - June 2026**

Bachelor of Science in Information Technology

Relevant Coursework: Object Oriented Programming, Data Structures and Algorithms, Operating Systems, Networking, Databases, Discrete Mathematics

Award: Best Thesis in System Development – awarded for outstanding system design and implementation

RELEVANT WORK EXPERIENCE

Web Developer Intern **January 2026 - April 2026**

Highly Succeed Inc.

- Led the development of the Human Resource Information System (HRIS) into a modern, full-stack web application, improving system architecture, optimizing data flow, and enhancing overall performance.

PROJECTS

BusGo Modern Jeepney Tracking App (2025)

- Developed a real-time tracking app using Flutter and Firebase, integrating GPS for location updates and passenger count management.
- Enhanced commuter convenience by displaying accurate estimated arrival times and seat availability.

Human Resource Information System (2026)

- Engineered a full-stack HRIS using React.js, Node.js, and PostgreSQL to automate and centralize HR processes, including employee record management and data tracking. Developed dynamic user interfaces and scalable backend services, ensuring efficient data flow through RESTful APIs.

Appointment Scheduler Web App (2025)

- A web-based scheduling system designed to manage and display available appointment slots, allowing efficient organization of schedules. Used HTML and CSS for frontend. JavaScript and JSON for backend.

SKILLS

Languages	C++, HTML, CSS, JavaScript, SQL, PHP, Dart
Frameworks	React, Flutter
Libraries & Tools	Tailwind CSS, Git, Figma
Databases	Firebase, MySQL, PostgreSQL
